

CONGREGATIONAL INTEREST SURVEY

Many of us, at various times, have expressed our appreciation for the closeness and fellowship that is possible because of the size of our congregation. We enjoy being part of our church "family" and know most—if not quite all—of the other members. This also means, however, that each of us is important in supporting and sustaining this family, in ways large and small, according to our situations and abilities.

We hope and pray that this survey will help each of us look at where we can contribute or get involved. If you have maintained a certain role in the church and are ready to move on to something new, go for it. If you would like to test the waters before making a new commitment, this is a place to start.

One thing we can almost guarantee is that working with others to benefit our congregation and community will enhance your fellowship and bring personal benefits as well.

Please respond thoughtfully and in whatever way is appropriate for you at this time.

Areas of Interest	1= Sure, I'd be willing to help.	2= maybe occasionally, or if I knew more about it	3=not at this time
